

SECURE STORAGE SOLUTIONS

THE NEW, LOW-COST STORAGE SOLUTION

Even as the world digitizes, paper documents remain an important part of our business landscape and compliance requirements often mandate the secure, long-term storage of certain files. Whether you have a full file room of paperwork or just a few boxes, our state-of-the-art secure storage facilities provide clients with:

- Secure storage of confidential documents at our compliant, hardened facilities
- Minimized risk of theft or exploitation of sensitive information with multi-step security protocols
- Long-term storage solutions at a cost-effective rate to fit any budget

BENEFITS OF OFF-SITE STORAGE

- **Increased Security:** Our facilities offer multi-step security protocols, locks, security cameras, 24/7 surveillance and secure, discreet transportation of assets – all of which are done by trained and fully vetted industry professionals.
- **Cost Efficient:** Utilizing an off-site managed storage facility can reduce the overhead costs associated with file storage, including lowering the physical space needed, security equipment, administrative labor and more in your operations.
- **Ensures Compliance:** Federal law regulates the management and accessibility of employee and customer data. Utilizing an off-site record storage facility can help ensure compliance and protect your business from unnecessary risk.

OUR PROCESS

- » Assets can be picked up and dropped off utilizing our discreet asset transportation services, featuring vehicles with GPS tracking
- » Once assets are dropped at our hardened, secure facility, documents, media and other records are cataloged and stored in a vault space dedicated to each client
- » Our multi-step protocols also offer visual verification at-will, providing confidence in knowing that critical assets are safely and securely stored
- » Our team will also unseal and transport any portion of the stored containers back to the client at any time

WHO WE WORK WITH

Government Entities

Financial Institutions

Public Utilities

Law Firms

Medical Offices

Architectural Firms
