

SECURITY CONSULTING

In today's rapidly evolving threat landscape, safeguarding your business requires more than just conventional security measures. The OSS Team brings a wealth of expertise and a proactive approach to security consulting, empowering organizations like yours to navigate the complexities of modern security challenges with confidence.

OSS was founded by a team of protective services, law enforcement, military, and intelligence professionals with an exclusive focus on managing risks to assets, facilities, and operations. While our backgrounds enable OSS to service all businesses, we have developed a specialty in both consulting and service delivery for highly regulated businesses. Our team of seasoned professionals is dedicated to tailoring comprehensive security solutions that align perfectly with your unique needs, ensuring your assets, reputation, and future remain fortified against any potential threat. OSS can consult businesses in the following areas:

Facility Security Planning

Armed & Unarmed Guard Service Consulting

Specialized Consulting Services

FACILITY SECURITY PLANNING

The facilities of high-risk business have become a key focus for security regulations in most States. Depending upon the locale, these security requirements can involve a wide variety of measures including but not limited to:

 Video surveillance

 Access control systems

 Alarm systems

 Physical fencing

 Intrusion detection

 Exterior lighting

OSS has demonstrated expertise and contractual agreements with the best subcontractors that design, install, monitor, and manage custom facility security solutions that exceed State and Local compliance requirements. By leveraging these corporate relationships, OSS is also able to offer best-in-class technical solutions at competitive prices. Our comprehensive portfolio of technologies includes secure mobile applications and web-based portals that provide business owners 24/7 remote visibility of their secured facilities. Digital video recording (DVR) and storage systems ensure compliance with mandated record-keeping requirements while providing appropriate State and Local law enforcement with transparent situational awareness. OSS security solutions include:

- ✔ Monitored alarms to protect against multiple threats
- ✔ Dual infrared and full color cameras
- ✔ Integrated video analytics for threat detection

- ✔ Slew to cue PTZ cameras
- ✔ Crash and smash protections
- ✔ Mobile app management

ARMED & UNARMED GUARD SERVICES

At OSS, we offer a comprehensive range of security solutions designed to meet your specific needs. Our armed and unarmed security guard services provide an unyielding shield of protection, ensuring the safety of your assets, employees, and customers. Whether you require a visible deterrent or a discreet security presence, we have you covered. The power of choice is in your hands. Our armed and unarmed security guard services are fully customizable to align with your unique requirements. We work closely with you to understand your concerns and design a security plan that empowers your organization to thrive in a safe and secure environment.

Through exclusive partnerships with established private security companies, OSS provides physical security solutions consisting of uniform armed and unarmed guards. OSS develops custom physical security service models for each business client given that service requirements are seldom the same from one facility, operational model or location to another. Our custom service model approach aligns with the current reality that regulations relative to physical security can vary from state to state, county to county and city to city. OSS works directly with state and local law enforcement and compliance units to deliver physical security and guard service models that ensure continuity of operations and effective response protocols in the event of an incident. The internal risks and threats for cash-intensive businesses can be as significant as external ones. These unique challenges mandate that only highly qualified, trained and experienced individuals are suitable for consideration.

SPECIALIZED CONSULTING SERVICES

Security is not a one-time endeavor; it's an ongoing journey. Our specialized security consultants forge lasting partnerships with our clients, offering continuous support and guidance to navigate the ever-changing security landscape. Together, we build resilience and ensure your organization's success in a world full of uncertainties.

OSS solutions include a robust consulting service to help highly regulated businesses prepare their state-issued permits, business license applications, site security plans, as well as comprehensive financial institution (FI) master account onboarding assistance. Our track record speaks for itself: OSS has enabled hundreds of start-ups to incorporate; legally service emerging markets; and acquire bank accounts with credit unions and state-chartered banks. Today, OSS not only provides direct support to highly-regulated businesses, but we also work directly for hundreds of financial institutions as they seek AML & BSA support. Our comprehensive suite of compliance consulting services are to support a wide-range of businesses and FIs. From in-person site visits and new client onboarding to audit assistance, OSS has the expertise and capabilities to support.
