

CASH-IN-TRANSIT CLIENT PORTAL

As an add-on to our signature cash-in-transit (CIT) services, OSS offers a convenient web-based customer portal to help clients more accurately manage their cash logistics and improve overall operational efficiency.

PORTAL FEATURES

- » On-demand reporting of your deposits, including detailed information such as shortages/overages, currency denomination amounts and date of deposit
- » Conveniently schedule change orders and cash pick-ups with the push of a button
- » Track pick-up requests, including optional information such as ticketed request numbers, deposit quantities and bag serial numbers
- » Request currency orders for both coin and paper currency with the option for free delivery when scheduled on the same day as their pick-up
- » See when your deposit was processed
- » Owners can map users to specific locations for both security and operational efficiency*
- » Multiple user packages available for larger enterprises

** Available for accounts with multiple locations/stores*

REQUEST A DEMO

Scan the QR code to tell us about your company and a member of the OSS team will be in touch to set up a consultation.
